**February, 2017 Performance Summary**

At the beginning of February, we promoted our Telephone Town Hall Meeting and getting feedback on our strategic plan across all of our platforms. One of our goals was to reach Spanish residents, and we did so in a lot of ways. We created a web page on our website where Spanish speaking residents can submit feedback, and we provided the link on a variety of platforms. This included links on our website and Board Member newsletters, a Facebook post, and a small postcard. This was one of the first times we have specifically targeted Spanish residents, and we look forward to continue communicating with this audience.

February may be the shortest month of the year, but that did not prevent us from having a high number of website visits! Compared to last month, our visits went up by 7,195, and form submissions went up by nine. Property taxes is once again our most searched term, and we anticipate that number to go up as we head into property tax season.

\*Several residents signed up the day of the Telephone Town Hall, but those are not accounted for. We had to submit the phone numbers we would call out to the day before the event. However, we did communicate to this group on how to call in to the event.
